Supervisor Gloria Molina
Supervisor Yvonne B. Burke
Supervisor Don Knabe
Supervisor Michael D. Antonovich

From: Jon W. Fullinwider 
Chief Information Officer

Subject: **VIRUS ATTACKS IMPACTING COUNTY SYSTEMS – UPDATE #4**

As we reported in our previous update on March 6, 2007, the RINBOT worm is being actively remediated to remove it from County systems. Symantec and McAfee, the County's anti-virus vendors, have provided and continue to update the tools to remediate it and prevent further infections.

As of today, only three departments (Health Services, Children and Family Services and Mental Health) have a total of 129 devices that remain to be remediated. Most of these devices have been disconnected from the network to prevent further infections. These departments have assigned teams to physically visit their various sites and conduct remediation steps.

The Chief Information Security Officer (CISO) and Internal Services Department (ISD) are working with departments to monitor the situation. My office will continue to update your Board on the status of this event and any future developments.

If you have any questions, please call me at 213.974.2008 or Al Brusewitz, CISO, at 562.940.3873 or via e-mail at abrusewitz@cio.lacounty.gov.
